Now, see what's new for Spring...

# **new** TEMPLOK® Energy Saving Ceilings

Calla® Templok® and Ultima® Templok®  
Ceilings improve thermal comfort and  
help regulate indoor temperatures

- Save up to 15% energy\* using integrated phase change material technology
- Provides up to 35 BTUs/SF of passive cooling\*
- Exceptional sound-blocking performance for enhanced speech privacy: CAC 39
- Part of our Total Acoustics® ceilings portfolio for total noise control and floor plan versatility: NRC + CAC = Total Acoustics Performance
- Build America, Buy America Act (BABAA) compliant

\* Measured cooling energy savings in lab test. Results may vary. See Templok Technical Guide.

Calla Templok Square Regular Ceiling Panels with Suprafine® XL® Suspension System

Ultima Low Embodied Carbon Beveled Tegular Suspension System with Suprafine® XL® Suspension System

## **new** ULTIMA® Low Embodied Carbon Panels

Help reduce the carbon footprint of the built environment with the lowest embodied carbon mineral fiber acoustical ceiling panels available\*

- Made with sustainably produced carbon sequestering biochar
- 100% USDA-Certified Biobased Product
- Part of the Sustain® portfolio and meets the most stringent industry sustainability compliance standards today
- Part of our Total Acoustics® ceilings portfolio for total noise control and floor plan versatility: NRC + CAC = Total Acoustics Performance
- Product can be recycled through the Armstrong Ceilings Recycling Program
- Build America, Buy America Act (BABAA) compliant

\* Per EC3 tool data available 2/1/24. Ultima Low Embodied Carbon Ceiling Panels (A1-A3) 0.187 Global Warming Potential, including biogenic carbon [kg CO<sup>2</sup> eq./ft<sup>2</sup>]

**new** OVERCAST Innovations

Prefabricated cloud systems and modular grid platforms that simplify MEP integration

- Versatile design options with multiple platform configurations
- Engineering design services reduce waste and inefficiencies in the built environment
- Timely and efficient streamlined procurement and supply chain
- Increased speed and safety while reducing jobsite congestion
- Flexibility to reconfigure panels for changing space needs
- Integrated Armstrong products maximize indoor environmental quality (IEQ) technology options that focus on occupant well-being

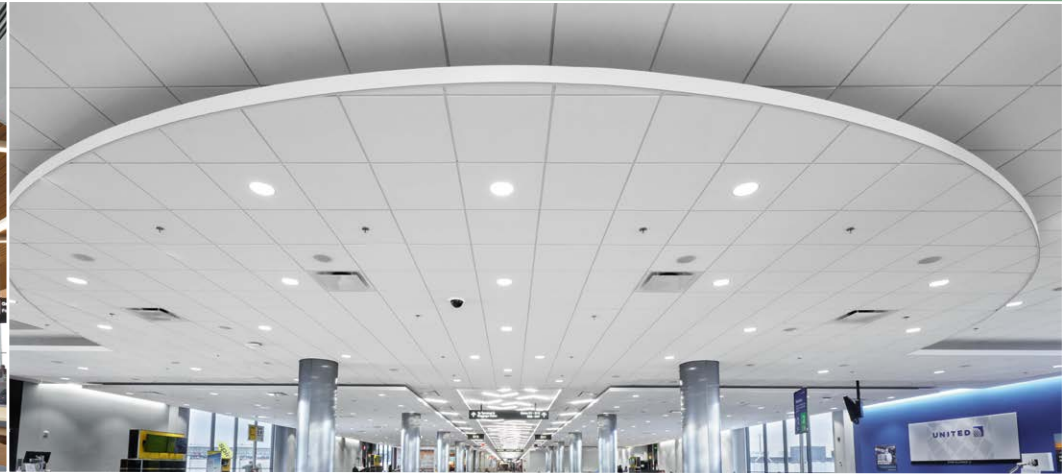

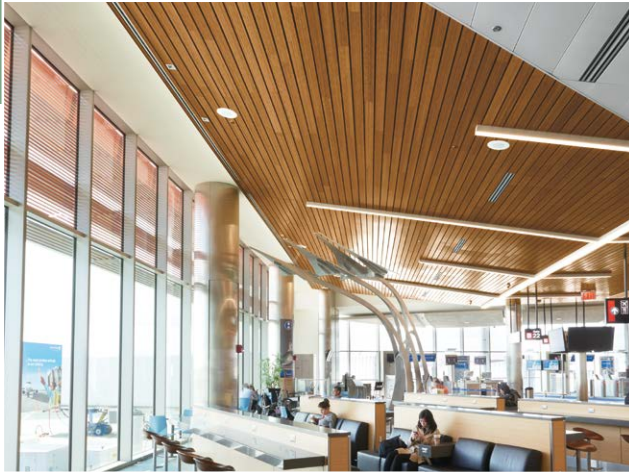

Overcast Modular Grid Platform

Overcast Prefabricated Cloud System

WoodWorks® Linear Veneered Open

Calla Square Regular Panels with Suprafine XL Suspension System and Axiom Classic Trim

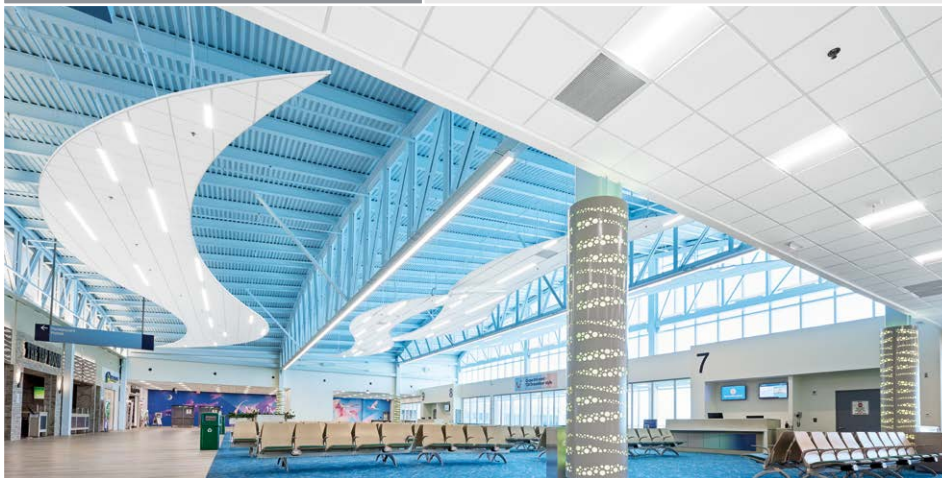

## Deliver a First Class Travel Experience

Let your ideas soar. Make every trip a memorable experience with ceilings that float, curve, and soar to meet the needs of every space from baggage check to baggage claim. Bring your most unique ideas to flight with ProjectWorks® Design & Pre-Construction Service.

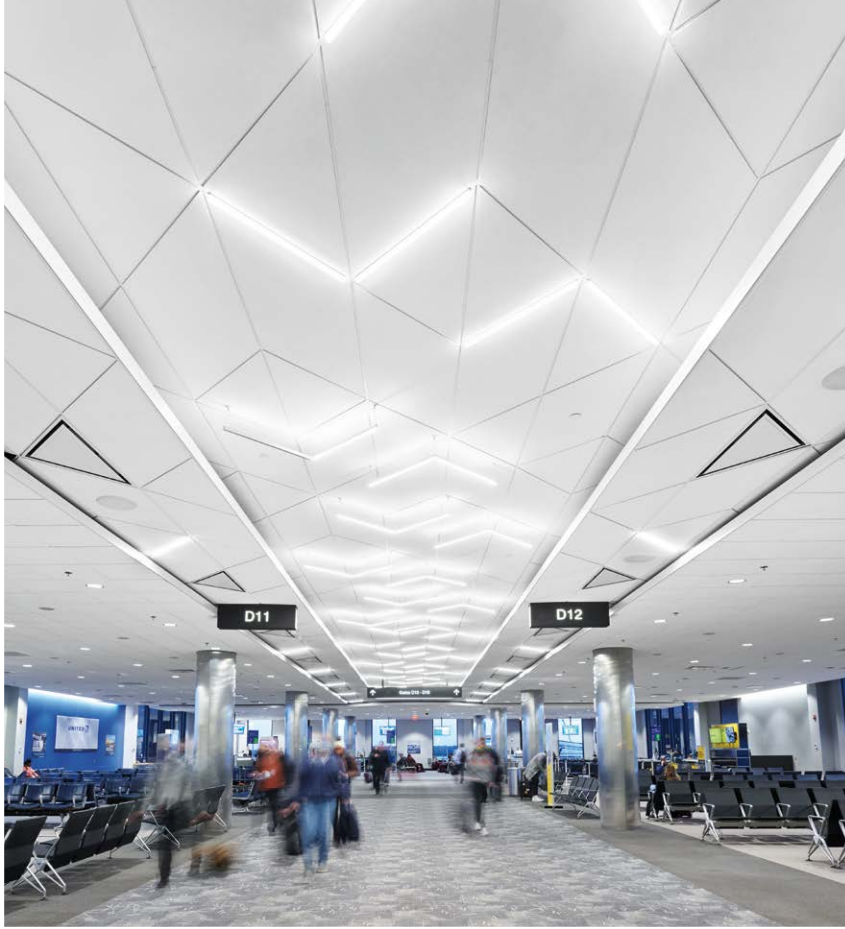

Let us help you deliver a first-class travel experience!

Calla Square Regular Panels with Suprafine® XL Suspension System and Axiom® Classic Trim

MetalWorks™ Torsion Spring Custom Panels

Calla® Shapes for DesignFlex®, Suprafine® Suspension System, Axiom® Trim

Did you know we offer over a thousand products that comply with the Build America, Buy America Act (BABAA) applicable to federal financial assistance and purchasing requirements?

With evolving and complex programs, we strive to make your decisions simple.

Optima® PB Panels, CastWorks® Column Covers

Optima® Panels, Prelude® XL® Suspension System, Axiom Classic Trim

WoodWorks Wall Panels and WoodWorks® Vector® Panels in Plain Slice White Maple, Axiom® Vector® Trim in Fern

## WOODWORKS® Wall Panels

Real wood veneers offer unparalleled natural beauty through varying species, graining, and color

- new • Updated finishes
- ASTM E84 Class A fire performance
- Incorporating nature into a built environment enhances Indoor Environmental Quality (IEQ)
- Standard perforation options provide acoustical benefits
- Available as standard on the price list with shorter lead times and no approvals required
- Select WoodWorks veneers are order-to-ship in 4 weeks or less

### Finish Ranges

### Legacy Veneers

**new** LYRA® PB Vector®  
Wood Looks

Realistic wood looks, superior acoustical control

- 1/4" reveal between lightweight, sag-resistant acoustical panels achieves the look of large format monolithic wood
- Lightweight panels are fast and easy to install on standard Prelude® suspension systems
- Superior acoustical performance of 0.90 NRC without perforations
- Part of the Sustain® portfolio and meets the most stringent industry sustainability compliance standards today
- Build America, Buy America Act (BABAA) compliant

SoundScapes Blades Wood-Look Panels in Brown Sugar Walnut (WBS)

## SOUNDSCAPES® Blades Linear Acoustical Ceiling and Wall Panels

Excellent acoustics and unlimited design possibilities through a variety of shapes, depths, colors, wood looks, and installation options

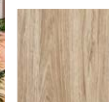

-  Now available in 4 wood-look visuals and 15 nature-inspired colors
- Excellent sound absorption up to 2.05 NRC
- Color-coordinated Prelude® Suspension Systems available
- Select products included in the FAST134 program; ready to ship in 4 weeks or less

# SOUNDSCAPES® Shapes Acoustical Ceiling and Wall Panels

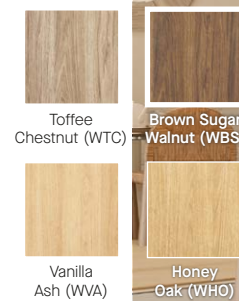

Deliver acoustics in playful installations with a variety of shapes, angles, sizes, and finishes

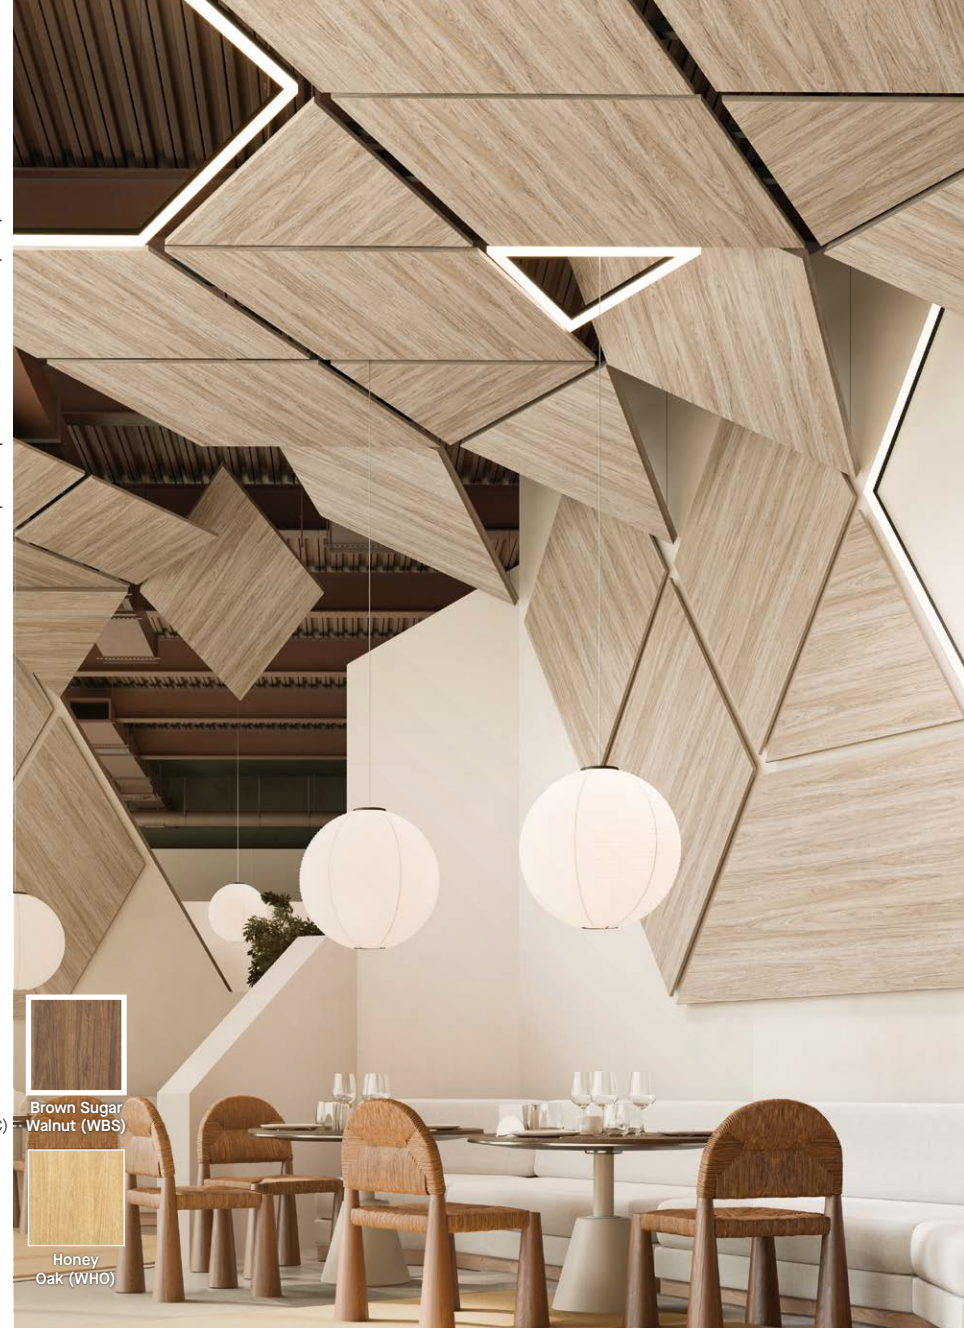

**FAST134**  
Select Items Ship Fast  
armstrongceilings.com/fast134

- Now available in 4 wood-look visuals and 15 nature-inspired colors
- Nine standard shapes including triangles, trapezoids, and parallelograms
- Excellent sound absorption up to 1.15 NRC
- Quick to install from the deck, drywall, suspension system or on a wall
- Select products included in the FAST134 program – ready to ship in 4 weeks or less

SoundScapes Shapes in Toffee Chestnut (WTC)

SoundScapes Acoustical Canopies,  
SoundScapes Shapes Wall Panels

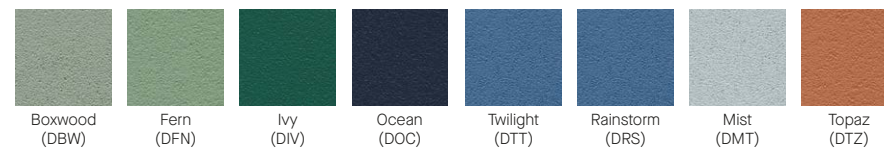

## SOUNDSCAPES® Acoustical Canopies

Enhance acoustics with spot  
absorption to define spaces

- new** • Now available in 15 nature-inspired colors
- Sound absorption up to 0.95 NRC
- Select products included in the FAST134 program – ready to ship in 4 weeks or less
- Hill and valley designs available in two sizes

**FAST134**  
Select Items Ship Fast  
armstrongceilings.com/fast134

**new** TECTUM® DesignArt™  
Lines – Finale™ PB

Integrated furring strips and a plant-based acoustical infill reduce installation time and offer one-of-a-kind visuals

- Panels have UL® Certified acoustics with acoustical testing and reporting that align with industry-wide best practices
- Excellent sound absorption – NRC 0.85 (1" panel, D-20 mounting)
- Panels are manufactured with a plant-based binder infill and furring pieces to provide maximum sound control and install 2.5x faster than Direct-Attach for the same acoustic performance
- 29 standard routed panels are available in 24 nature-inspired colors and Natural
- Part of the Sustain® portfolio, meeting the most stringent industry sustainability compliance standards today
- Build America, Buy America Act (BABAA) compliant

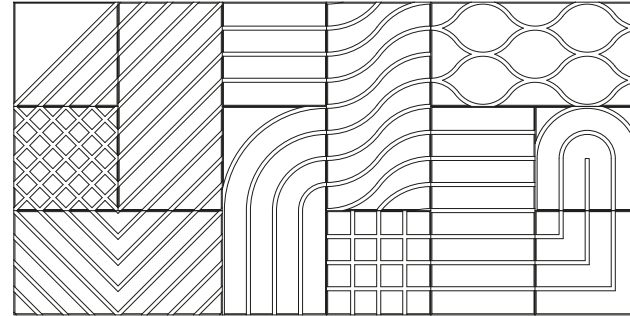

Tectum DesignArt – Lines Finale PB Ceiling and Wall Panels in Topaz, Marigold, Feldspar, and Mist

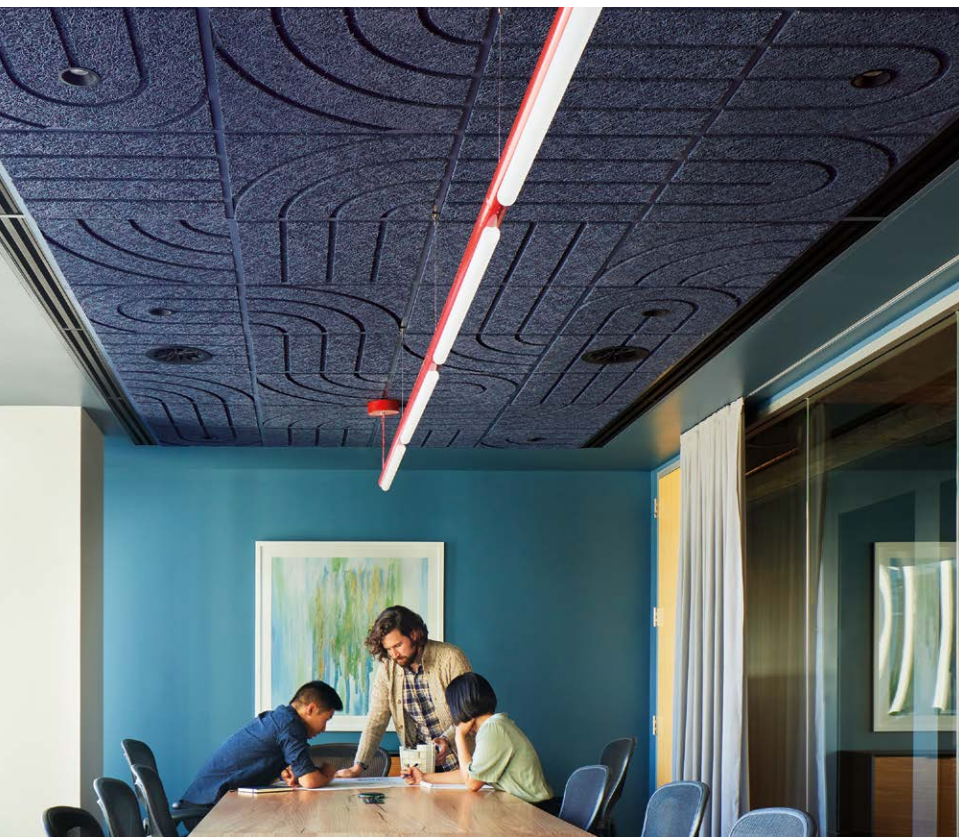

## Make an Eco-chic Impression

Visit our online pattern gallery at [armstrongceilings.com/patterngallery](http://armstrongceilings.com/patterngallery)

Use our recommended colors, or choose from 24 standard colors, in addition to Natural, to create your own one-of-a-kind pattern!

Precision Routing Allows for Mixing and Matching

Tectum® DesignArt™ - Lines Tegular Ceiling Panels and Prelude® XL® Exposed Tee in Twilight

# new DESIGNSTACKZ™ Ceiling System

Create unique left and right  
L-shaped ceiling patterns with  
90-degree ceiling system

- New multi-directional 90-degree bracket
- Good combination of sound absorption and sound blocking: 0.80 NRC and 32 CAC
- Part of the Sustain® portfolio and meets the most stringent industry sustainability compliance standards today
- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim
- DesignStackz Ceiling System with T-BAR STAX™ Lighting by JLC-Tech

DesignStackz Ceiling System  
with T-BAR STAX Lighting by JLC-Tech

Axiom Indirect Field Light Cove

## **new** AXIOM® Keyless Indirect Light Coves and Ledges

Keyless options provide additional lighting flexibility

- Axiom® Indirect Light Ledge and Axiom Indirect Field Light Cove offer solutions for any lighting condition and perfect integration with any Armstrong® Suspension System
- Available in curved and straight
- Compatible with most linear LED cove lights
- Part of the Sustain® portfolio and meets the most stringent industry sustainability compliance standards today

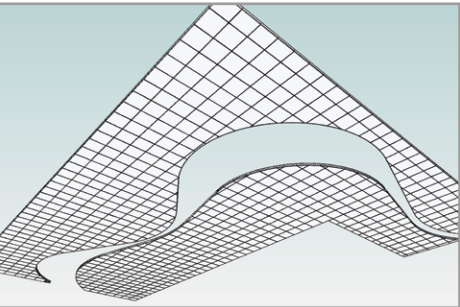

# PROJECTWORKS® Design & Pre-Construction Service

## Dramatic without the Drama

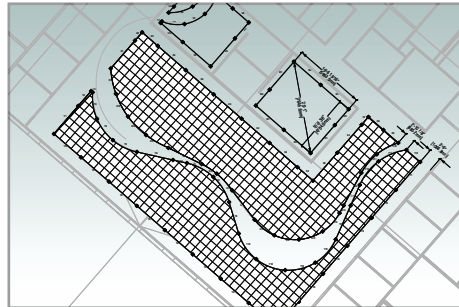

Achieve a strong a fast design outcome with our complimentary design service. Through the power of collaboration, we can deliver:

- Dimensionally accurate 3D Revit® models that link to existing building plans, accelerating the design process
- Revit Model can be used for renderings and architectural walkthroughs
- Detailed drawing layouts to improve project coordination
- Materials budget and specification guidance
- Optimization capabilities to reduce material waste

Our streamlined set of deliverables minimizes unnecessary challenges and helps keep projects on target. Let us help simplify your next project today!

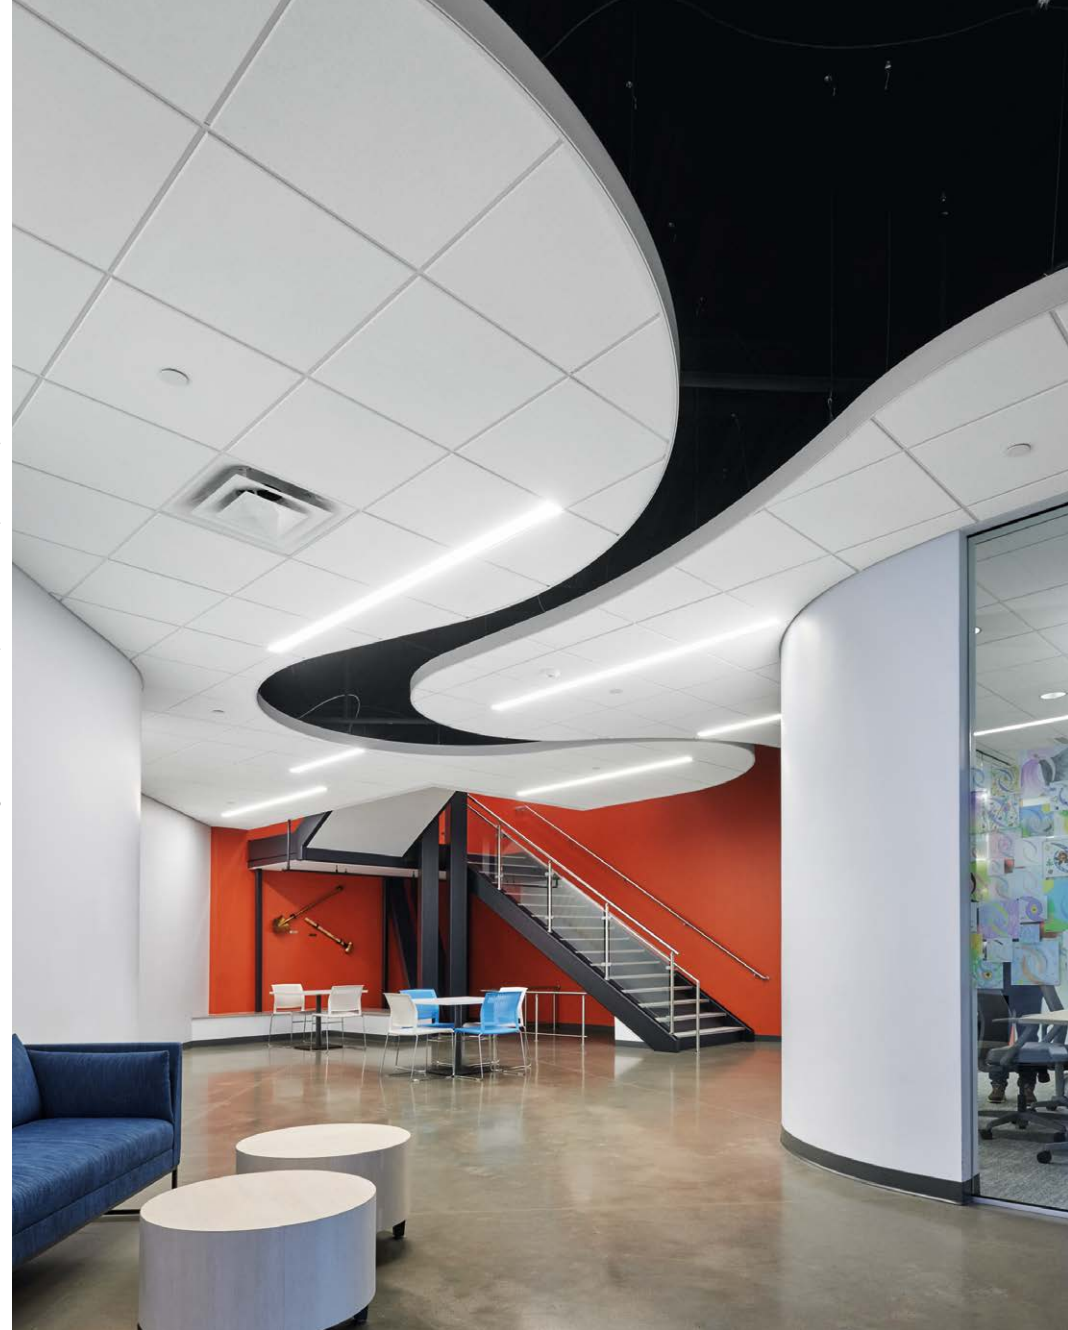

Revit models include product data for the panels, suspension, and perimeter trim

Drawings include panel, suspension, and hardware schedules to guide construction documents

Ultima® Beveled Tegular Panels with Suprafine® XL® Suspension System and Axiom® Classic Trim
